

The Spearheading of US India Healthcare Summit 2023 in US

Mr. H S Panaser President GITCC and Dr. Rahul Gupta, US White House Director of National Drug Policy met with Chief Minister of Karnataka Shri Basavaraj Bommai and discussed issues of mutual interest.

EDISON, NJ (TIP): The Global Indian Trade and Cultural Council USA (GITCC) is shaping into a Global Platform for Asian Indians to global market, will implement in September 2023, the first US-India Business and Healthcare Summit to bring global healthcare recognition to the region. It will help define India as a hub of innovation for training and research infrastructure in bringing to the region healthcare excellence through knowledge and technology transfers between the U.S. and India. US-India Healthcare Summit will increase commercial ties to implement enterprises tapping U.S.-India expertise to Indian pharmaceutical market expected to grow to US\$ 100 billion by 2025

Mr. H S Panaser President GITCC started meeting the leaders in the healthcare segment in India. He initiated his visit with Dr. Rahul Gupta the US White House Director of National Drug

Policy. They Met the Chief Minister of Karnataka Sh. Basavaraj Bommai and Dr C N Ashwath Narayan, Minister for IT & BT, Science & Technology, Higher Education, Skill Development, Entrepreneurship & Livelihood, Government of Karnataka to deliberate on new avenues in anti-narcotics and manufacturing of medication to treat drug dependence for US and other markets in the backdrop of firms globally pursuing the China-Plus-One strategy.

Collaborative engagements in the areas of enforcement, regulatory frameworks, transparency through effective IT Systems, building of robust frameworks for the growth of the pharmaceutical industry were discussed. As per the New Education Policy (NEP), the government unveiled its ambitious 'Twinning Programme' in 2021. A first-of-its-kind in India, it aims to internationalize higher education. Cooperation in student exchange programs, educational

twinning programs, curriculum building, upskilling and job growth in leading edge programs in Healthcare, Biotech, Tele-health, IT and Data Security were also discussed in detail.

A 2021 World Drug Report released by the United Nations Office on Drugs and Crime (UNODC) indicated that over 36 million people have suffered from substance use disorders (SUD). According to Global Data's Clinical Trial Database, nearly 80% of clinical trials are being sponsored by academic institutions, the pharmaceutical industry is lagging behind in the clinical arena of addiction treatments.

Post the discussion, Dr CN Ashwath Narayan said, "India and the USA are already working on bolstering the India-US counter-narcotics agreement as India assumes G20 presidency from December this year. The Government of Karnataka is exploring partnerships with the USA to continue to strengthen this dialogue. Further, we will share best practices for
